

Revention Digital Signage

Revention digital signage allows you to create a high quality experience for your customers by displaying menu options and offers that drive sales in a visually dynamic and captivating way. From rolling pictures of your menu to videos, upcoming events, special occasions, or even subsidized advertising, the benefits of having digital signage and entertainment are virtually endless!

Make updates easier and faster

- Remotely make real-time changes for multiple stores
- Push menu, inventory, and coupon updates from a single web portal
- Cloud-based digital signage software
- Easily manage your media with ease by uploading images, videos, and more
- Multiple media files accepted, including GIFs
- Save layouts for easy updating and editing
- Ability to access standardized files and widgets including weather, clocks, more
- Schedule specific content to show by time or days of the week

Creativity that drives sales

- Visually promote your menu and special offers to boost sales
- Promote new menu items or seasonal offers to increase customer's average purchase by encouraging add-on items at checkout
- Show off positive customer reviews or the latest social media mentions to obtain trust and encourage word of mouth support
- Provide visual entertainment such show trivia or sport scores for guests waiting for food to reduce perceived wait times
